

PACKAGING STORAGE MANUAL

Smaller amount of packaging

Construct the pallet from different types of packaging so that the height of the pallet does not surpass 1.6 m, the heavier packagings are placed lower, packaging of the same type is placed on top of each other, and the pallet stays stable.

For example pictures see below

Larger amount of packaging

Packaging should be stacked on pallets by type in the amounts described in the table.

AS A. Le Coq's packaging storage amounts on a EUR pallet
